

This listing of claims will replace all prior versions, and listing, of claims in the application:

Listing of Claims:

Claim 1 (currently amended): A product purchase decision making device comprising:
means for inputting product identification information;
means for accessing a plurality of product information sources;
means for receiving product information based on said product identification information from said plurality of product information sources, including product safety information; and
means for indicating to a user a product purchase decision based on said received product safety information.

Claim 2 (original): The device as recited in claim 1, wherein said indicating means comprises:
a green positive indicating button;
a red negative indicating button; and
a yellow caution indicating button.

Claim 3 (original): The device as recited in claim 1, wherein said indicating means comprises:
a circular positive indicating button;
an octagonal negative indicating button; and
a triangular caution indicating button.

Claim 4 (canceled)

Claim 5 (original): The device as recited in claim 1, further comprising means for displaying received product information.

Claim 6 (original): The device as recited in claim 1, wherein the device comprises one of a personal digital assistant, laptop computer, handheld computer, palmtop computer or a cellular phone.

Claim 7 (original): The device as recited in claim 1, wherein said means for inputting product identification information comprises a bar code scanner.

Claim 8 (original): The device as recited in claim 1, wherein said means for inputting product identification information comprises an alphanumeric keyboard.

Claim 9 (original): The device as recited in claim 7, wherein said indicating means comprises: a green positive indicating button; a red negative indicating button; and a yellow caution indicating button.

Claim 10 (original): The device as recited in claim 7, wherein said indicating means comprises: a circular positive indicating button; an octagonal negative indicating button; and a triangular caution indicating button.

Claim 11 (canceled)

Claim 12 (original): The device as recited in claim 8, wherein said indicating means comprises: a green positive indicating button; a red negative indicating button; and a yellow caution indicating button.

Claim 13 (original): The device as recited in claim 8, wherein said indicating means comprises: a circular positive indicating button; an octagonal negative indicating button; and a triangular caution indicating button.

Claim 14 (canceled)

Claim 15 (previously presented): The device as recited in claim 1, further including means for providing input information to a product manufacturer.

Claim 16 (new): The device as recited in claim 1, wherein said indicating means comprises:
a green positive indicating button; and
a red negative indicating button.

Claim 17 (new): The device as recited in claim 7, wherein said indicating means comprises a positive indicating button and a negative indicating button.

Claim 18 (new): A food product purchase decision making device comprising:
means for inputting food product identification information;
means for accessing a food product information source;
means for receiving food product information based on said product identification information from said food product information source, including nutritional information regarding the food product; and
means for indicating to a user a food product purchase decision based on said food product nutritional information.

Claim 19 (new): The device as recited in claim 18, wherein said indicating means comprises:
a green positive indicating button; and
a red negative indicating button.

Claim 20 (new): The device as recited in claim 18, wherein said indicating means comprises:
a circular positive indicating button; and
an octagonal negative indicating button.

Claim 21 (new): The device as recited in claim 18, wherein said indicating means comprises a positive indicating button and a negative indicating button.

Claim 22 (new): The device as recited in claim 18, wherein said nutritional information includes nutritional facts and ingredients for food products available at one or more of a restaurant, a grocery store or a convenience store.

Claim 23 (new): The device as recited in claim 18, wherein the food product includes prepared food products and unprepared food products.

Claim 24 (new): A product purchase decision making device comprising:

- means for inputting product identification information;
- means for accessing a plurality of product information sources;
- means for receiving product information based on said product identification information from said plurality of product information sources, including product pricing information; and
- means for indicating to a user a product purchase decision based on said received product pricing information.
